

M.S. City to Shore Bike Tour 2012

Register today!

September 29-30 2012

Once again this year the GWRRA N.J. District membership along with their friends and family will be supporting the M.S Bike Tour. Each year as a direct result of all of our efforts the society gets more and more pedal cyclists signing up to ride in this premier event. Cyclists come from all over the country to ride in this event because it is so well supported with safety stops, protected intersections, road assistance, food and fun that the demand for our services is ever increasing. Every year YOU do more to make it better and this year will be no exception. The cyclists while enjoying the benefits of a great ride, nice route and great views are the ones that raise in excess of \$ 5 million dollars in donations.

This money does not go to waste, it goes to benefit the thousands of people that are suffering with M.S. it helps many with money to fund the costs of retrofitting living space to handicap access as well as research to find medicines to treat and hopefully find a cure for M.S.

Please tell your friends, family, co-workers and bring them with you to volunteer to work an intersection to provide "safe passage" or to patrol on a motorcycle to offer road assistance or first aid along the route. They do not have to ride a motorcycle or be affiliated with any group, they simply need the desire to help. You can register on line at: road-marshals.org or visit the N.J. District GWRRA website and click on the link.

Please allow me to be the first of the thousands of "Thank You's" you will receive from the cyclists along with the thousands of silent ones you will get from all the people suffering with M.S.

If you have any questions feel free to give me a call: 732-887-0374 or send me an e-mail: michael@mandellplumbing.com

Of course we understand if your situation or schedules change between now and the event, so if you must cancel out for any reason, we certainly will miss you but most definitely understand.

PLEASE, volunteer TODAY!

Thank You,
Mike and Nancy Mandell
M.S. City to Shore Bike Tour 2012 Coordinator
